Craft card: Christmas house card set

1. Cut out the parts and fold them along the fold lines on each.

2. First, make a mountain fold along the valley fold line at the center of the base. Then, cut a slot into each of the V-shaped lines on either side.

3. Insert the tree and Santa Claus (including their glue tabs) into each of the corresponding slots on the base, and attach them to the board from its back.

4. Attach both the front and back covers and you're done! *You can decorate the card or envelope with your favorite stickers, to make your card even more original!
